Welcome to this majestic home set on 2.8 acres of spectacular property on one of the most beautiful cul-de-sacs in Wesley Hills. Set back on magnificently landscaped grounds, this custom designed cedar and stone colonial exudes timeless elegance and quiet luxury. Upon entering the home, you will be enchanted by the soaring ceilings, the abundance of windows, the gracious curved staircase, and the gorgeous hardwood floors. You will be captivated by thoughtful architectural details including stunning built-ins, handsome millwork, and inviting window seats. Through two sets of French doors, enter the luxurious living room or the banquet sized dining room. The heart of the home, the recently updated custom gourmet kitchen, features classic white cabinetry, quartzite countertops, and sophisticated Wolf and Sub-Zero appliances. The kitchen opens to the sun-drenched family room where you will appreciate the ever-changing wonders of nature, whether curling up with a book by the stone fireplace or stepping outside to the expansive two-tier deck. Two bedrooms, a full bathroom, a laundry room, a separate mud entrance, and a three-car garage complete the first floor. Retreat upstairs to the spacious primary suite with a vaulted ceiling, two large walk-in closets, a marble vanity with a sink, and a lavish marble ensuite bathroom with double sinks and radiant heat. Down the hall, there are three additional bedrooms with crown moldings, window seats, and a tray ceiling. Two bedrooms share a Jack and Jill bathroom with two sinks, and one is equipped with an en suite full bathroom. In addition to an attic that runs the length of the home, adjacent to one of the bedrooms is a bonus storage room. Do not miss the sprawling walkout lower level which boasts an additional 1560 square feet of living space, including a large guest bedroom, a full bathroom, two playrooms, a media room, a gym, a kitchenette, and a wall of closets. There is also a large unfinished space used for storage. The backyard oasis features an oversize heated saltwater swimming pool and spa, with a retractable cover, surrounded by an exquisite stone patio, fields of lush lawn, lovely gardens, an above ground vegetable and herb garden, a tranquil forest, and a babbling brook that meanders to a serene pond at the rear of the property. Most of the energy for the home is provided by fully owned solar panels on the back roof and stored on three Powerwall batteries. The home is equipped with multiple heating and cooling zones, an in-ground sprinkler system, a security system, a sound system, two electric vehicle charging stations, and a natural gas generator. Suffern schools. Just 30 miles from the George Washington Bridge, this is a rare opportunity to create new memories in the home of your dreams.
