Wow! Architect-Designed Colonial with Iconic Style and Space Set on a flat, green cul-de-sac lot, this distinctive 7–8 bedroom, 4 full and 2 half bath home was designed by architect James Tanner. It features walls of glass, beamed wood ceilings, and a striking double-sided stone fireplace to the family room and living room. The newly renovated chef's kitchen boasts high-end appliances—48" stove, 4 ovens, 2 fridges, 2 dishwashers, 3 sinks—and opens to a bright dinette with views of nature and access to a spacious deck. Adjacent to the kitchen is a custom library with access from the family room as well. The primary suite is impressive with soaring ceilings, a circular staircase to a loft, fireplace, spa-like bath, and generous closets. The walk-in level offers flexible space for extended living or a home office, with its own entrance, vaulted ceilings, a "secret" staircase to the main level, 2 bedrooms, 1.5 baths, and a double family room with sliders to the backyard—ideal for multi-generational living or working from home. Extras include a full-house generator, well and municipal water, awning-covered deck, and 2-car attached garage. This one is a winner!
