New Construction. 4 Bedroom, 3.5 bathrooms and full unfinished walkout basement with 9' ceilings. The home is conveniently located next to I95 and the Hutchison Parkway and public transportation. The home has an open floor plan with large rooms and a two story entrance. The first floor features a large kitchen island open to the family room, a large mudroom with a built-in bench and cabinets above, a powder room and a formal living room with a linear gas fireplace. The primary suite has two large walk-in closets, double vanities and a shower with both a rain head and handheld. There are three other bedrooms on the second floor, two share a Jack and Jill bath while the third has an ensuite. The laundry room is located on the second floor along with an unfinished storage area above the garage and a pull down stairs to the attic. Gas has been sized for a future generator and the necessary concrete slab has already been installed. The basement has been thoughtfully planned, including location of ducts, windows and underground plumbing to allowing for easier finishing in the future.
